

3 Courses

Introduction to Python Fundamentals

Introduction to Python Functions

Python Packages for Data Science

University
of Colorado
Boulder

Sep 5, 2025

Sharmake Hassan Said

has successfully completed the online Specialization

Expressway to Data Science: Python Programming

In this specialization, learners gained fundamental knowledge of Python programming, including variables, operations, flow control, functions, and function creation. Learners experienced and practiced widely used Python packages for Data Science, such as NumPy, Pandas, Matplotlib, and Seaborn. Expressway to Data Science: Python Programming is an excellent resource for learners preparing to complete CU Boulder's Master of Science in Data Science program.

Di Wu
Instructor
Data Science

This certificate attests to the learner's completion of an online program delivered via Coursera. It does not constitute formal enrollment at any university or entity and does not itself grant academic credit, grades, or a degree. Institutions or organizations may, at their discretion, recognize this learning toward their own programs or credentials.
