PROFESSIONAL SUMMARY

Full Stack Developer, Data Analyst, and AI/Machine Learning Enthusiast with a passion for building modern, scalable, and intelligent software systems. Experienced in creating complete web applications, healthcare platforms, and AI-driven solutions using React, Node.js, Python, and MongoDB. Proven track record of turning complex business requirements into robust, high-performance digital products.

EDUCATION

B.Tech in Computer Science & Engineering | Pursuing

SKILLS

Programming Languages: JavaScript, TypeScript, Python, PHP, R, Java, SQL
Web Technologies: React, Next.js, Node.js, Express.js, Tailwind CSS, Bootstrap
Databases: MongoDB, MySQL, PostgreSQL
AI & Data Analysis: Machine Learning (Python, Flask), Data Analytics, Power BI, Tableau, Excel
Tools & Platforms: Git, GitHub, Postman, Vercel, Firebase

EXPERIENCE

Full Stack Developer | Freelance & Academic Projects | 2023 - Present

- Designed and developed multiple full-stack web applications including healthcare platforms, e-commerce systems, and AI-powered SaaS tools using React, Node.js, and MongoDB.
- Built intelligent systems integrating machine learning models for malware detection, sleep quality prediction, and hospital readmission forecasting.
- Implemented secure authentication, role-based access control, and RESTful APIs across all major projects ensuring scalability and data integrity.

Data Analyst & ML Enthusiast | Academic Projects | 2022 - Present

- Conducted data analysis using Python, R, SQL, and Excel to extract actionable insights from healthcare and business datasets.
- Built predictive models and dashboards for data visualization using Power BI and Tableau.
- Applied machine learning techniques including classification, regression, and clustering to solve real-world problems.

SELECTED PROJECTS

Pediatric Health Hub | React, Node.js, MongoDB

- A comprehensive pediatric healthcare platform enabling real-time appointment booking, teleconsultations, and role-based portals for parents, doctors, and admins.

JUGFIK AI Project Mgmt | React, Node.js, Prisma, AI

- An AI-first project management SaaS platform with AI search, reporting, risk assessment, and smart automation.

CyberSentinel Hybrid Malware Detection | Python, ML, React, Node.js

- AI-Powered Hybrid Malware Detection Platform. Real-time static & dynamic analysis using Machine Learning.

AI MEET Notes | Next.js, AI APIs, TypeScript

- An intelligent meeting note-taker leveraging AI to automatically transcribe and summarize meetings, ensuring no critical detail is missed.

SOM Election Platform

| *React, Node.js, MySQL*

- A modern, secure, and transparent electronic voting system designed for Somalia with voter registration and real-time voting.
